

Info Sheet for Technical description

No. 0023)

Organization

* Mandatory fields

Name of Organization*	UniBio Corporation	
Address, City, States, Zip, Country*	88 Niidagata, Nishikan-Ku, Niigata City, Niigata. 959-0597 JAPAN	
URL	https://unibio-jp.com/en/	
Brief Descriptions of Organization* (Approx. 100 words)	Develops and manufactures proteins by plant biotechnology, transiently expressing from tobacco plants, for use as pharmaceuticals, regenerative medicine materials, cosmetics, etc. In addition to development and manufacturing, we also provide contract services related to plant biotechnology.	
Contact address	Name*	Hiroko SATO
	Department* / Position	President and COO
	E-mail* / TEL	hiroko@unibio-jp.com / +81-256-78-8120

What kind of technology do you want to offer? *

- ☐ **A.** Clinical Development Pipelines
- ☒ **B.** Regenerative Medicine-related Consumables / Instruments / Materials / CDMO Services etc.
- ☐ **C.** Platform Technologies(*) that are not included in the above (Group B)
- * Peripheral technologies that contribute to a significant improvement in productivity throughout the value chain of pharmaceuticals, from research and development to manufacturing and ultimately market launch.

→ Please see **Sheet [A]**→ Please see **Sheet [B]**→ Please see **Sheet [C]**

If you agree to the following, please check "Yes" below. *

The technologies introduced in this 'Info Sheet' are in the public domain, as they have been published in research papers or have related patent applications.

- ☒ Yes

Do you have any collaborations/partnerships with pharmaceutical companies?

- ☒ Yes
- ☐ No

If you have already received funding from VCs or other sources, up to which stage has the investment round progressed?

- ☒ Angel / Seed (including AMED/JST grants)
- ☐ Series A
- ☐ Series B
- ☐ Series C
- ☐ Series D or further advanced stages

Do you agree to leave your presentation materials at FIRM hands and entrust us to make use of them for the purpose of promoting your partnering opportunities? *

Options*	Comments
☒ Yes	
☐ No

Info Sheet for Technical overview

No. B-0023

* Mandatoty fields

Title*

Reagents for regenerative medicine and tissue engineering

Category*

- | | | |
|---|--|---|
| ☐ Facilities | ☐ Manufacturing equipment | ☐ Inspection equipment |
| ☐ Cells | ☐ Culture medium | ☒ Reagents |
| ☐ Cell banking | ☐ Storage / Container | ☐ Logistics |
| ☐ Cell / Viral vector manufacturing technology | | |

Description*

【On the market/to be on the market】Cell growth factors (EGF, activin A)
【Contract service】R&D and manufacture of plant-expressed growth factors
【Ongoing R&D】: growth factors, scaffolds (collagen)
