

Info Sheet for Technical description

No. 0027

Organization

* Mandatory fields

Name of Organization*	Kidswell Bio Corporation	
Address, City, States, Zip, Country*	3-8-3 Nihombashihoncho, Chio-ku, Tokyo, 103-0023, Japan	
URL	https://www.kidswellbio.com/en/	
Brief Descriptions of Organization* (Approx. 100 words)	Kidswell Bio Corporation, through wholly-owned subsidiary S-Quatre Corporation, promotes cell therapy (regenerative medicine) business focusing on Stem cells from human exfoliated deciduous teeth ("SHED"). The company is currently conducting a clinical study on Cerebral palsy, the business expected to form a rapid growth in the future.	
Contact address	Name*	Itsuki Kashin
	Department* / Position	Corporate Strategy Div. License & Alliance Dept.
	E-mail* / TEL	itsuki.kashin@kidswellbio.com

What kind of technology do you want to offer? *

- ☒ **A.** Clinical Development Pipelines
- ☒ **B.** Regenerative Medicine-related Consumables / Instruments / Materials / CDMO Services etc.
- ☐ **C.** Platform Technologies(*) that are not included in the above (Group B)
- * Peripheral technologies that contribute to a significant improvement in productivity throughout the value chain of pharmaceuticals, from research and development to manufacturing and ultimately market launch.

→ Please see **Sheet [A]**→ Please see **Sheet [B]**→ Please see **Sheet [C]**

If you agree to the following, please check "Yes" below. *

The technologies introduced in this 'Info Sheet' are in the public domain, as they have been published in research papers or have related patent applications.

- ☒ Yes

Do you have any collaborations/partnerships with pharmaceutical companies?

- ☒ Yes
- ☐ No

If you have already received funding from VCs or other sources, up to which stage has the investment round progressed?

- ☐ Angel / Seed (including AMED/JST grants)
- ☐ Series A
- ☐ Series B
- ☐ Series C
- ☐ Series D or further advanced stages

Do you agree to leave your presentation materials at FIRM hands and entrust us to make use of them for the purpose of promoting your partnering opportunities? *

Options*	Comments
☒ Yes	
☐ No

Description*

SHED are developmentally derived from the neural crest cells (ectodermal lineage) which exhibit different protein secretion patterns and high proliferation capacity compared to MSCs derived from other tissues such as bone marrow or adipose tissue. S-Quatre, a wholly-owned subsidiary of Kidswell Bio, has a technology to isolate and expand cell populations of SHED and established multiple lots of master cell bank (MCB) compliant with GMP/GCTP and FDA guideline. S-Quatre/Kidswell Bio would like to offer SHED-MCB for clinical and commercial use.
